1995 RESULTS UPDATES

The Games in Melbourne were a great success and a grand time was had by all. If there was any disappointment, it was in the area of Results' collection.

The Host experienced problems which made collecting the final results difficult. Many people put in long hours to help in assembling the final version, but unfortunately, the results from several events were incomplete, incorrect or missing entirely.

Those competitors who were affected, and contacted the Federation, were justifiably disappointed. Many had worked for months to train for their competition, and to not have their efforts recognized was frustrating. Several were able to document their placement and we are happy to take this opportunity to publish this updated information. You are invited to clip out this page and insert it into your 1995 Results Book.
