**The command to let go must be given while the dog is unleashed.**

## ABRIDGED RULES-POLICE SERVICE DOGS – 2022

Once the dog has released the target, the handler is allowed to pick up the leash again and continue along the track. If the dog should get hold of the target again, the handler must drop the leash again and subsequently command the dog to let go of its target.

**A two-minute penalty will be imposed if the handler is found to have exercised undue influence (e.g. corrective leash, threatening movement, etc.) to get the dog to release the target. This decision will be at the discretion of the jury. The dog should be at ease after five commands, on pain of disqualification.**

### **Obstacle 20: Throwing Balls**

Handler throws three balls into a frame. The dog must lie down next to the handler and is not allowed to get up. The handler is not allowed to be standing on the dog's leash.

### **Obstacle 21: Target practice**

All safety instructions issued by the jury must be followed here at all times. Should safety be compromised this will result in disqualification, at the discretion of the jury.

Following the target practice routine, the handler will receive a card showing the number of any misses. Once the handler has retrieved his/her dog, the card must be handed to the jury member outside the shelter. A penalty walk for misses will be imposed on handler and dog, to be run together along the cones (each miss equals a 50-meter penalty run).

### **Obstacle 22: Pallets**

The dog must take this obstacle on its own without coercion from its handler, and without any extra pushing or shoving. The handler must wait until the dog has gotten hold of the target and subsequently proceed to the dog in order to give the command for releasing the target.

**The command to release the target must be given while the dog is unleashed.** Once the dog has released its target, the handler may pick up the leash again and proceed on the track. If the dog gets hold of its target again, the handler must drop the leash again and subsequently command the dog to release the target.

## **ABRIDGED RULES-POLICE SERVICE DOGS – 2022**

**A two-minute penalty will be imposed if the handler is found to have exercised undue influence (e.g. corrective leash, threatening movement, etc.) to get the dog to release the target. The handler will then retrieve the dog and continue the track towards the finish.
