GENERAL SPORT RULES for Rifle – Large Bore

Where conflicts between ISSF/ICFRA/NRA guidelines and WPFGE rules occur (i.e. awards formula, eligibility of competitors and substitution after competition begins) always use WPFGE rules.

SCHEDULE: Each event should be scheduled on a separate day. It is preferred that the WPFGE Match - Prone Position event be shot on the first day and the International Match shot match be shot on the second day. *For the purpose of scheduling venues for all rifle events, the order of events will be Air Rifle, followed by Small Bore Rifle, followed by Large Bore Rifle.*

CLASSIFICATION: WPFGE Classifications will be used. *A competitor without an established WPFGE classification may use their official national classification card or Score Record Book to receive an "Assigned Classification."*

The averages listed below will be used to establish WPFGE Classification:

WPFGE Match - Prone Position

High Master	98.50 and above
Master	97.00 to 98.49
Expert	94.50 to 96.99

RIFLE - Large Bore – 2025 - Page 5

Sharpshooter	92.00 to 94.49
Marksman	Below 92.00

WPFG Match – F-Class

High Master	98.00 and above

Sharpshooter	85.00 to 89.99
Marksman	Below 85.00

Any competitor without an established WPFG classification who cannot present such evidence will shoot their Individual event. The score they obtain on the in their Individual event will be used to determine their proper classification for the awarding of medals in the various classes in the Individual event. This classification will also be used for the Team event.

A competitor's classification will not change during a tournament. A competitor will enter a tournament under their correct classification and shoot the entire tournament in that class. Should it be discovered during a tournament that a competitor has entered in a classification lower than their current rating, the competitor will be subject to possible disqualification. *The WPFGF reserves the right to reclassify any shooter based upon "known ability" or other evidence to the skill of the individual.*

All classifications and scores shall become obsolete if the competitor does not fire in WPFG or other nationally sanctioned competition at least once during 3 successive WPFG events. Master classifications and scores shall become obsolete if the competitor does not fire in WPFG competition at least once during 5 WPFG events.

Competing in a Higher Class - Any individual or team may elect, before firing, to compete in a higher classification than the one in which classified. Such individual or team must fire in such higher class throughout the tournament and not revert to earned classification for any event in that tournament.

Classification Appeals - Any competitor having reason to believe that they are improperly classified may file an appeal with the WPFGF Director stating all essential facts. Any such appeals must be filed prior to the start of competition. The WPFGF Director will make the final determination as to the classification.

RIFLE - Large Bore – 2025 - Page 6

Classification Protests - Any person who believes that another competitor has been improperly classified may file a protest with the WPFGE Director stating all essential facts. Any such protests must be filed prior to the start of competition. The WPFGE Director will make the final determination as to the classification.

Team Classification - Teams are classified by computing the “team average” based on the classification of each firing member of the team. To compute this “team average” the key listed below for the different classes will be used and the team total divided by the number of firing members of the team. Any fractional figure in the team average of one half or more places the team in the next higher class. The “team average” will establish classification of the team as a unit but will not affect in anyway the individual classification of team members.

Team Class Key

High Master	5
Master	4
Expert	3
Sharpshooter	2
Marksman	1
